Local Streets and Roads Funding Program Technical Training Registration

Please mark your calendars for the California Transportation Commission's Local Streets and Roads Program Annual Project Expenditure Reporting for FY 2023-24. For your convenience we have scheduled two sessions, during the session we will go over expenditure reporting criteria and process. Each session will provide the same content, please attend only one.

Space is limited, and registration will be on a first come first serve basis. A representative from your Department of Finance Division and Public Works should attend. It is best if they are attended together as this will help to streamline the internal efforts for information gathering as it relates to the Annual Expenditure Report.

These workshops will be held virtually. Registration links for each workshop can be found below. A workshop agenda will be made available prior to each workshop date on the Commission's website.
